

# Cotton Snowman (Template & Instructions)

@THISHEALINGMAMA

## INSTRUCTIONS

SNOWMAN'S NOSE

## MATERIALS LIST

- Blue, orange and white colored construction paper
- Googly eyes
- Sequins
- Glue
- Cotton Balls
- Scissors
- 1 Brown crayon

1.) Pull apart the cotton balls so they are in fluffy pieces, this will be the snow on the ground. Glue these pieces to the bottom of the blue construction paper.

2.) Using the provided template, cut out the three snowman body pieces. (You can print out the template and just use the white printer paper if that is easier!)

3.) Glue the snowman's body pieces to the blue construction paper, starting at the top of the snow you made earlier.

4.) Using the provided template, cut out the snowman's nose. Glue the nose and googly eyes to the snowman's face. Use your sequins to create snowman buttons.

5.) With the brown crayon, draw snowman arms onto the body.

6.) If you like, glue other sequins around the snowman to look like falling snow!
